This matter was most recently opened to the New Jersey State Board of Medical Examiners ("Board") based on a request by Alejandro Presilla, M.D. ("Respondent") for the termination of the three year probationary term imposed by Consent Order, filed March 2006, when he sought the reinstatement of an active license to practice medicine and surgery and permission to move to the next phase of his remedial education program as required by the Initial Consent Order, filed November 16, 2004 ("Initial Order"). Respondent's license was previously actively suspended by the Board in the Initial Order, dated November 16, 2004, following an investigation of his laboratory practices and medical practice.

CERTIFIED TRUE COPY

Respondent participated in a focused evaluation in December 2003, and since then has been actively addressing identified areas requiring remediation. In March 2006, Respondent received an unrestricted license, which established a three year probationary period during which he was required to engage in continuing monitoring and education. Based on a review of the CME courses completed since 2006 and Respondent's compliance with other requisite terms of the 2006 Order, the Board has determined that the within disposition is adequate to protect the public health, safety and welfare at this time. The Board is satisfied that Dr. Presilla is fit to practice medicine and surgery in the State of New Jersey. For such reasons and other good cause shown,

IT IS ON THIS 24 DAY OF August, 2009,

ORDERED AND AGREED:

1. Respondent Alejandro Presilla, M.D.'s license to practice medicine and surgery in the State of New Jersey is hereby reinstated to an active unrestricted non-probationary status, effective on the date this Order is filed.
